In order to respond to the needs and means of each one,  
twoo formats of the book have been imagined.

## CLASSIC FORMAT

61,61 €<sub>HT</sub>

As its name also indicates, this is the classic, normal version of the book, in a large format, thick and hard cover, as it is intended for the general public.

## "LOTS" FORMAT

45,50 €<sub>HT</sub>

As its name indicates, this format is adapted to entities (companies, communities, schools...) wishing to acquire lots of the work at an affordable price. The format is a little smaller than the traditional book, with a cover and paper more adapted. It makes the book accessible to all, including schools, which was essential to us, considering the awareness and education aspect inherent to the project.
